The games has change a lot I can totally say is worth

this game does give u a nice challenge , the combat system is actually great and the graphics are very nice

I totally recommend this game. Sorry, but this is total crap.

- Bad controllls
- Terrible graphics
- Poor modeling
- Lots of bugs

A video showing of the game:

<https://www.youtube.com/watch?v=DJY0ITnUyVg>. Ultimately a very simplistic and repetitive shmup that could use some more intentional wave/pattern design and really any features beyond bare bones shoot-em-up elements. Has the look and feel of a project that was probably very educational for the developer, but a few projects or a lot of revision away from something worth buying.. Extremely poorly done, very clunky gameplay. No sense taken into account at all.. Plug in you video input to a TV, hook up some controllers, and your all set for some super fun couch co-op.. Do you like Pawn Stars? Do you like finding hidden object? Do you like achievements? If you said "yes" to all three questions, then you'll like this game.. We asked for it and SakuraGame delivered.

[You get a folder with all the songs in .wav format plus an in-game music player.](#)

[Time to listen to Martha's theme until I get sick of it \u2665. vary good game. Amazing. It's like an hidden object game, but goes far enough beyond that to create it's own genre..It's worlds better than any of the hidden object games out there.](#)

An incredibly immersive (and optionally HUDless) world full of deeply clever puzzles and an unconventional narrative. Haven't smiled at the solutions to so many puzzles since playing VVVVVV.. I think packs like this need to be more cheap, don't add anything useful to the game, I prefer a better economic system and an open world start than a new skin for the seats.

But is beautiful and support the develop of a great game, that's why I recommend... Well...I guess it's a nice game...I would actually play it more IF IT WOULDN'T HAVE RESETED MY ACHIEVEMENTS FOR NO ACTUAL REASON!. Fun little puzzle game.

The story is interesting.

Some puzzle have no ingame clues, so you need to guess, but other wise fun.

But wait for it to be on sale.. 3minutes total time to finish the campaign? Really? But then you have the option to play the survival mode which is there to try to make this look like an actual game.

Why would someone publish that? Just stay away for your own sake.. Another awful mobile indie autorunner with a horrible user interface. The whole Steam page description does very little to clue you in on what it actually is. Let's try to break it down

Over 40 levels

That must be so hard when all of the levels are basically the same.

Groovy platforming

WHAT PLATFORMING WHEN IT PLAYS ITSELF!?

Funk-Fu, ancient Greece, gods and demigods

Fight to restore the funk by defeating Pop, Rock and Rap

Ride your pimped-out Pegasus

Shut up. These aren't features! They aren't! THOSE ARE VAGUE IDEAS AND BUZZWORDS! (And did they intentionally misspell Pegasus?)

Trash like this does little but add filler to bundles on third party sites and earn you some cards to sell. Why Steam allows mobile phone garbage like this onto their store, I don't know. Avoid.. its an item find game with a pawn shop minigame its ok, meaning its exactly what youd think it is an di got it for a buck so i had at least a dollars worth of fun with it having played through it one time
